<b>Description of change</b>	<p>The Digi One SP products have traditionally had a part number for North America (domestic) and a part number for International (rest of world) with the only difference being the power supply accessory. As part of the effort to streamline our product offers, we are consolidating the pairs of part numbers into <u>one Worldwide part number</u>. Certifications are identical on each of the part number pairs.</p> <ul style="list-style-type: none"> <li>As of February 5, 2018, the replacement (worldwide) part number* will be updated with a different power supply that allows for exchanging of the power plug. The power supply will ship with a US power plug on the power supply and a separate box containing EU, UK and AUST plugs.</li> <li>The current International part number will continue to ship as is until the last time buy ship date, which is noted below.</li> </ul> <p>This is an ongoing effort to streamline and consolidate our product offerings to focus on consistent product availability while maintaining our high quality.</p> <p>All LTB purchase orders are NCNR (non-cancellable/non-returnable).</p> <p>Standard warranty policy will apply to all LTB purchases.</p> <p>*NOTE: Specific part number and revision information is in appendix below.</p>
