

End-of-Life (EOL) Notification

EOL No.: PANJIT-2107002

Issue Date: July 15th, 2021

Dear Customer,

PANJIT International Inc. received a sudden notice by our wafer fab regarding their decision to discontinue the Schottky production line. The cease of production was effective immediately and no last time buy opportunity was offered.

Reacting to this notification, PANJIT had checked the parts affected and sought for an alternative wafer source to ensure the possibility of a continuous supply of the affected parts. Unfortunately, after a month of hard work, an alternative wafer source was not available due to the issue of shortage in current wafer supply and the unique platinum process. In order to allow customers to respond to this product's supply situation as soon as possible, we hereby announce a notification of discontinuation of this product family.

For product types affected, please refer to the table below.

Production Discontinued Date: Immediately

Please contact your local PANJIT sales representative for any questions or further clarification.
Thanks in advance for your understanding and support.
