**3M™ Belts, Rolls, Discs and 3M Roloc™ Discs 963G, Remaining Grades (24, 40, 50, 60, 80, 100 and 120) Discontinuation and Suggested Replacement**

Dear Valued Partner,

This communication is to inform you of the discontinuation of 3M™ Belts, Rolls, Discs and 3M Roloc Discs 963G, Grades 24, 40, 50, 60, 80, 100 and 120 effective immediately.

Belts in Grade 60 are no longer available as our inventory has been depleted. There is not a last time buy for this product. Roloc™ discs in grade 60 have a limited supply and depending on the SKU may have enough for a last buy. All other phased out SKU's will be treated on a "while supplies last" basis. We will continue to fulfill orders of the identified products until material is no longer available on a first come, first served basis. We ask that you immediately notify customers of the changes and begin the phase in/phase out process. We strongly encourage customers to begin using the suggested alternative products listed in the chart below and in the attached SKU listing. However, it is the customers responsibility to determine whether the suggested replacement products are suitable for their intended applications.

<b>Discontinued Product</b>	<b>Suggested Replacement Product</b>
3M™ Belt 963G, Grade 24	3m™ Cubitron™II Belt 966F, Grade 24+
