### DESCRIPTION AND PURPOSE OF CHANGE:

For the purpose of datasheet information enlargement & keeping in line with internal standardization, Würth Elektronik will change some of the information shown on the datasheet of all the active components for the matchcode WE-BAL.

There will be no change in form, fit, function, quality or reliability of the product.

### DETAIL OF CHANGE:

Old datasheets will be updated according to the new format.

Some of the parts had wrong mechanical information and will be changed accordingly in the datasheet.

More information will be shown in the electrical parameters and curves.

**Neither electrical nor mechanical properties of the part will change.**

Both, old and new, datasheets are attached along with.

### RELIABILITY / QUALIFICATION SUMMARY:

Process / Product approval is according to internal requirements released by the Total Quality Department and the Product Management Department.
