LF PCN# A0063 Notification of part number change: Mini Diode 1A/400V

Dear Valued Customer,
Littelfuse Inc., as the leading provider of total circuit protection solution with global commitment to providing the highest quality products, would like to notify you of the change in part number of the Mini Diode 1A/400V.

Impacted Part number	Part number on Housing	Replacement Part number	Part number on Housing
02400104P	Yes	02400113P	No
02400110P	Yes	02400113P	No

The replacement part has been in production since 2001, and is identical to the impacted parts in form, fit, function and performance. The only difference in the material is the replacement part does not have a part number on the housing.

Littelfuse is making this change in an effort to avoid cost increases driven by producing multiple versions of the same material.

Littelfuse will continue to accept new orders of materials 02400104P and 02400110P until August 29, 2014, with a last ship date of September 30, 2014.

Please contact your local Littelfuse representative if you have any additional questions. We will be pleased to answer any questions you may have.

Thank you for your continued support.

Best Regards,

Jenny Kiolbasa
