Re: Obsolescence of PH Series Heatsinks

Dear Valued Customer / Partner,

TDK-Lambda has now completed end of life notices for the first generation PH DC-DC power modules. Accordingly we are issuing an end of life notice for the dedicated heatsinks used on these modules. The part numbers affected are HAA041, HAA062, HAA072, HAA083 and HAA146.

A very limited amount is in stock for purchase, please contact the factory if you have a requirement to check if that part is available. We are offering a last time buy opportunity until January 2nd, 2018, with a last time ship date of January 31st, 2018. Please understand that these orders would be non-cancelable and non-returnable.

A handwritten signature in black ink, appearing to read "Tom Tillman", enclosed within a hand-drawn oval.
