

Submit/distribute Dear Customers,		Application withdrawal		Control number 8UCMH-0046-2		
Issue date 13-Apr-22	Issue PS department QC	Title Change of epoxy adhesive withdrawn change application		Approved 	Confirm /	Prepared 
classify record						

1. Target model

Potentiometers and encoders in the PS Department (Ichinoseki Office) of Actuator Division

2. Reason for withdrawal

After analysis of feedback from our customers we asked our adhesive vendor to re-evaluate the cost of the product. We explained to them the short notice they provided us did not give our customers enough time to evaluate the new adhesives.

Our supplier will keep using the same materials to make the adhesives per our request. We will continue to provide a list of chemicals used to make the adhesives upon request.

3. Contents of the original change notice

withdrawn change application
