TE would like to inform you of the following change(s) to the listed TE Connectivity Product. In case of any further questions about this change(s), please contact your TE Connectivity Sales Engineer. Affected part, drawing and/or specification numbers are listed on the attached sheet(s).

**General Product Description:**

Spindle operated potentiometers - Type 51 series

**Description of Changes**

Discontinuance of entire type 51 series potentiometers including 51,53, 54,55,56 and 61 variations.

**Other attachments:**

[51T series Datasheet](#)

**Reason for Changes:**

Part status change. Owing to the sudden unexpected closure of the plant manufacturing the 51 series potentiometer, it is necessary to make the entire series EOL with immediate effect and no last time buy facility. For the 51 type variation we could offer the 51T series potentiometer as a possible replacement. For other types there is no viable alternative.
