

## Customer Information Notification

201404002I

**Issue Date:** 12-Apr-2014  
**Effective Date:** 11-Jul-2014

Here's your personalized quality information concerning products Digi-Key purchased from NXP.  
For detailed information we invite you to [view this notification online](#)

### Management Summary

New CIN to bring additional information to PCN 201204010F01 (Cu wire introduction for the TDA8035 in HVQFN32)

### Change Category

## TDA8035HN/C1/S1 new Type name and 12NC for Cu wire version

### Information Notification

Due to the Cu wire introduction for the TDA8035 in HVQFN32, a new type was created as follows :  
TDA8035HN/C1/S1 (9353 004 94118, 9353 004 94151, 9353 004 94157)

### Why do we issue this Information Notification

The original FPCN mentioned that there would be no change for the copper wire version.  
But the 12NC and type name have actually been changed for product traceability.

### Identification of Affected Products

New product type TDA8035HN/C1/S1 and related 12NC's will be mentioned on Packing labels accordingly.  
Besides, LineA of Top Side marking will be changed to "8035S".

## Impact

no impact to the product's functionality anticipated.

## Data Sheet Revision

No impact to existing datasheet

## Disposition of Old Products

All new designs should migrate to TDA8035 Cu; TDA8035 Au might go to DOD in 2015.

## Additional information

Affected products and sales history information

## Contact and Support

For all inquiries regarding the ePCN tool application or access issues, please [contact NXP "Global Quality Support Team"](#).

For all Quality Notification content inquiries, please contact your local NXP Sales Support team.

For specific questions on this notice or the products affected please contact our specialist directly:

**Name** Jean-François Tant  
**Position** Customer Quality Manager  
**e-mail address** [jean-francois.tant@nxp.com](mailto:jean-francois.tant@nxp.com)

At NXP Semiconductors we are constantly striving to improve our product and processes to ensure they reach the highest possible Quality Standards.  
Customer Focus, Passion to Win.

NXP Quality Management Team.

## About NXP Semiconductors

NXP Semiconductors N.V. (NASDAQ: NXPI) provides High Performance Mixed Signal and Standard Product solutions that leverage its leading RF, Analog, Power Management, Interface, Security and Digital Processing expertise. These innovations are used in a wide range of automotive, identification, wireless infrastructure, lighting, industrial, mobile, consumer and computing applications.

A global semiconductor company with operations in more than 25 countries, NXP posted unaudited revenue of \$4.36 billion in 2012.
