The following Phoenix Contact products have been modified. Existing specifications will be met or exceeded. Please review and acknowledge this document and inform your personnel as needed.

Description for Product Change Notification

As part of a design standardization, the look of the listed products is being unified; i.e. all listed products of the QUINT POWER product range are given a new design. This includes:

- the Order No. and order designation on the device front
- a QR code on the face of the device
- unambiguous numbering of all terminal points
- a change in color of the connection technology
- the Phoenix Contact logo

Due to system-related reasons, the switchover to the new design may be realized in advance for online and printed documentation. The expected initial delivery may vary depending on the order and stocking situations.

These aesthetic changes do not effect any features or functionalities of the QUINT 4 power supplies.
