**RE: Consolidation of SE-703 Earth-Leakage Relay Model Options**

Dear Valued Customer,

This letter is to inform you of the consolidation of our model options for the SE-703 Earth-Leakage Relay.

In April 2017, Littelfuse updated the SE-703 Earth-Leakage Relay offering to include model options that include two 8-A-rated Form-C output contacts, improving flexibility and simplifying retrofits for users. In addition, a model option was introduced to provide selectable fail-safe and non-fail-safe operating modes, which is labeled with AS/NZS 2081:2002 compliance. Standard models continue to be fail-safe only and meet AS/NZS 2081:2011 requirements

With the completion of relevant certifications and production underway for the new model options, **the older SE-703 models utilizing Form-A and Form-B contacts will be discontinued effective January 1, 2018**. The table below illustrates the discontinued models and the equivalent replacement part number. **The new part numbers in the second column (adding a “-00” suffix to the former part number) are equivalent in form, fit, and function.**

**The former part numbers given below will no longer be available effective January 1, 2018:**

Former Part No.	New Part No. Fail-Safe Only Operating Mode (AS/NZS 2081:2011 Compliant)	New Part No. Fail-Safe and Non-Fail- Safe Operating Modes (AS/NZS 2081:2002 Compliant)	Power Supply
SE-703-0U	SE-703-0U-00	SE-703-0U-02	120/240 Vac/Vdc
SE-703-0D	SE-703-0D-00	SE-703-0D-02	12/24 Vdc
SE-703-0T	SE-703-0T-00	SE-703-0T-02	48 Vdc
SE-703-03	SE-703-03-00	SE-703-03-02	24 Vac

Littelfuse will do everything possible to ensure that the transition is smooth. Please call or email your local Littelfuse representative or contact our technical support staff at +1 (306) 373-5505 or [relays@littelfuse.com](mailto:relays@littelfuse.com) if you have any questions or concerns.

Best regards,

Dean J. Katsiris
