

**Issue Date:** February 28<sup>th</sup>, 2020

Dear Valued Customer,

This notice is to inform you of changes in the supply chain for item(s) you have purchased from Littelfuse.

***Description of the Change:***

- Littelfuse has and will be insourcing final assembly operations on the attached part numbers.
- Certain assembly kits (identified by \*) will ship disassembled (formerly shipped assembled).

***Reason for The Change:***

- These changes are being made to best control the supply chain of our products, improving both the quality & lead times from the vendors established before Littelfuse acquired Menbers S.R.L.
- The kits identified as now being shipped disassembled will prevent rework at our customers, as disassembly is required for installation.

***Effective Date of the Change:***

- This insourcing initiative began Q4 2019 and will continue with subsets of parts, as noted.

***What You Need to Do:***

- These changes will not impact the fit, form, or function of your finished goods.
- In preparation for this change, we created a bank build of finished goods to ensure an uninterrupted supply of finished goods. As we erode that bank build from each phase of this move, we will begin fulfilling orders according to the changes outlined above as a running change.

For any questions, please feel free to reach out to either your Littelfuse Customer Service Representative or Inside Sales Representative.

We appreciate your continued partnership and business.

Sincerely,

Zachary Naughton  
Global Product Manager  
Littelfuse Commercial Vehicle Products
