CW688-ND FTS375-010.0M
CW689-ND FTS375 EVAL KIT
CW742-ND FTS500-010.0M KIT

Samsung recently announced the EOL and last time buy of the Navajo chipset used in the Connor-Winfield FTS products. Connor-Winfield Corporation regrestfully, in turn, announces the End Of Life of our FTS product line. Unfortunately, this EOL is immediate as inventory of this chipset has been depleted.

No **Last Time Buy** (LTB) option at this time.

If your customers would like to discuss other design options with Connor-Winfield engineering, please have them contact Connor-Winfield, <http://www.conwin.com/>

We ask Digi-Key to obsolete or remove these parts from your website.

Please let us know if you have any questions.
