

WHAT'S IN THE BOX

XPort EDGE Gateway Evaluation Board

5V Power Supply with Regional Adapters

RJ45 to RJ45 Cable

DB9F to DB9F Null Modem Cable

WHAT'S NEEDED

Lantronix Provisioning Manager Software

Ethernet Switch

Computer

1. HARDWARE OVERVIEW & SETUP

1a. Supply power to the evaluation board by plugging in the included power adapter to the 5V Power Input (shown below).

1b. Insert Ethernet Cable into the XPort EDGE Gateway.

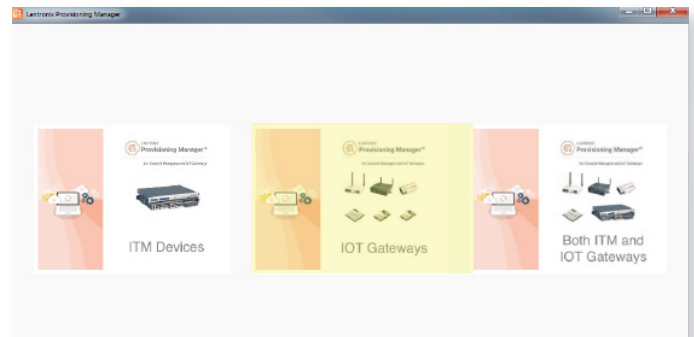

1c. Move the ON/OFF power switch to ON. The **RED** and **GREEN** LED lights on the gateway should illuminate and remain static.

1d. Proceed to the next page for instructions on how to configure the XPort EDGE using Lantronix Provisioning Manager Software.

2. DOWNLOAD & RUN LANTRONIX PROVISIONING MANAGER

2a. Download the latest Windows, Linux or MacOS versions of the Lantronix Provisioning Manager Software tool from our website and install it on your computer.

<https://www.lantronix.com/products/lantronix-provisioning-manager/>

2b. Run Lantronix Provisioning Manager. Once the software opens, select the Lantronix product you want to provision. In the case of XPort EDGE, select **IoT Gateways**.

3. INITIAL CONFIGURATION

Name	Status	Firmware version	Serial Number	IP	MAC
xPortEdge	●	2.0.0.3R1	0080A3CD534C	169.254.0.1	00:80:a3:cd:53:4c

 Your connection to this site is not private

Username:

Password:

3a. In Lantronix Provisioning Manager’s device directory, locate your XPort EDGE and note the IP Address. Enter the IP Address into a web browser.

3b. You will be prompted to enter login credentials. Type the following default credentials to sign into the Web UI.

Username: admin
Password: PASSWORD

!

KEEP YOUR DEVICE SECURE. Please change the default administrator password before proceeding further. From the XPort EDGE dashboard, select **“User.”** Then, click **“Admin”** and enter a new password up to 32 characters. Click submit. You can also add users and designate their roles by typing in each name and clicking **“Submit.”**

4. COMPLETE THE CONFIGURATION

Continue with the rest of the unit configuration using the Web Management Interface (UI). Context-sensitive help is available in-line within the Web UI. For detailed instructions, please refer to the XPort EDGE User Guide:
