To: All customers using the CONSMA007-R178 and CONREVSMA007-R178

Re: Product Change Notice

Dear customer,

Linx Technologies is announcing a change in manufacturing for the CONSMA007-R178 and CONREVSMA007-R178.

The products are mechanically similar to, and offer enhanced electrical performances to, the previous versions of the products. The manufacturing change made to the CONSMA007-R178 is the use of a thinner spacer and the use of a longer support when connecting CONSMA007-R178 to a coaxial cable. The manufacturing change made to the CONREVSMA007-R178 is the use of a thicker spacer when connecting CONREVSMA007-R178 to a coaxial cable.

We are committed to working closely with our customers during the transition to address any questions or concerns.

Product Change Notice for CONSMA007-R178 and CONREVSMA007-R178

PCN #: LPCN-130618

Publish Date: June 18, 2013

Type of Change

Manufacturing change for CONSMA007-R178 and CONREVSMA007-R178

Products Affected

- CONSMA007-R178
- CONREVSMA007-R178

Description of Change

The adjusted spacer and support lengths for the CONSMA007-R178 connector are illustrated in Figure 1 below. The adjusted spacer length for the CONREVSMA007-R178 connector is illustrated in Figure 2 below.

Figure 1: CONSMA007-R178 spacer and support lengths

Figure 2: CONREVSMA007-R178 spacer and support lengths

Reason for Change

Enhance the electrical performance of CONSMA007-R178 and CONREVSMA007-R178 connectors.

Effect of Change

Form: No change

Fit: No change

Function: No change

Quality: Enhanced impedance stability

Anticipated First Ship Date

June 2013

Qualification Data

Qualification plan specifics are not for general release. Please contact Linx directly for additional information or assistance.

Last Time Buy Date

No formal last time buy date is established. Product with adjusted spacer and support lengths will be supplied as of the date of this notice.
