Bourns® Model 7400 Series Common Mode Choke Marking Process Change

Change from Ink Marking to Laser Marking

Riverside, California – October 8, 2019 – Bourns is changing the marking process of the [Model 7400 Series Common Mode Chokes](#) from ink stamping to laser printing. The new process will increase manufacturing productivity and improve marking durability. A list of affected part numbers is shown below.

The laser marking process will have no impact on the fit or function of the product. The form will change due to the appearance of the marking. The quality and reliability should be improved as the result of the process change.

Affected Part Numbers		
7402-RC	7408-RC	7414-RC
7404-RC	7410-RC	7416-RC
7406-RC	7412-RC	7418-RC

Implementation dates are as follows:

Date that manufacturing of existing products will cease: **December 31, 2019**

Date that deliveries of modified products will begin: **January 2, 2020**

First date code using the above changes: **2001**

If you have any questions or need additional information, please feel free to contact [Customer Service/Inside Sales](#).

Users should verify that the described changes will not impact the performance of the product in their specific applications.
