

TE Connectivity

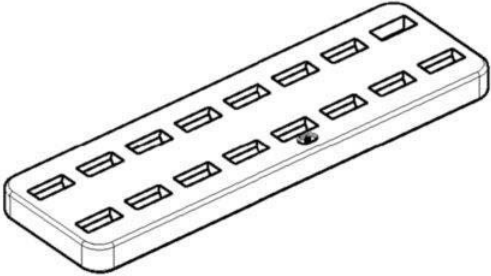

PCN Date: 13-Apr-18

Product Change Notification: P-18-015715

TE would like to inform you of the following change(s) to the listed TE Connectivity Product. In case of any further questions about this change(s), please contact your TE Connectivity Sales Engineer. Affected part, drawing and/or specification numbers are listed on the attached sheet(s).

General Product Description:
Frontal seals for JPT / MT2 Connector

Description of Changes
FOR NOTIFICATION ONLY. Part status change: passage from single source material to dual source material. Introduction of a Silicone dual source material (LSR 2020) because of shortage of original is the corresponding material proposed by an already used supplier and it has the same Silicone Class and material characteristic.

Reason for Changes:

Part status change. FOR NOTIFICATION ONLY. Part status change: passage from single source material to dual source material. Dear Customer, we hereby inform you about a dual source material introduction. The dual source follows a strict procedure, which fully maintains quality, ability to supply and form-ﬁt-function of the concerned products. TE has already performed a qualiﬁcation in the past for this dual source material. A re-qualiﬁcation for confirmation is ongoing but, because of raw material shortage, we have stock of original material that covers the demand till 15th of May 2018 with no ability from original supplier to provide more. So, the deliveries with dual source material will start before the re-qualiﬁcation. We can state that, for deliveries with dual source material prior to re-qualiﬁcation, the risk is low. This is based on the qualiﬁcation done in the past.

Estimated Dates:	
Last Order Date (Obsolete Parts Only):	First Date To Ship (Changed Parts Only):
	15-MAY-2018
Last Ship Date (Obsolete Parts Only):	Last Date for Mixed Shipments: (Changed Parts Only):
	No Mixed Shipments
