## Product Change Notification

**PCN No:** 2022-08-09-01  
**Report Date:** August 9, 2022  
**Subject:** LK204-25 / VK204-25 / OK204-25  
New PCB R3.0.1 Release

---

### List of New Products:

LK204-25-XX-XX VK204-25-XX-XX OK204-25-XX-XX All protocol, color, temperature and voltage options
--

### Reason for Change:

Updating of PCB R3.0 to PCB R3.0.1.

### Schedule of Change:

August 1, 2022

### Product Change:

New PCB R3.0.1 offers double footprint to have flexibility in production using two different IC packages. Stock supply is an issue with the microcontroller used on PCB 3.0. New PCB R3.0.1 can be populated with either MCU: ATMEGA164P-20AU (TQFN) or ATMEGA164P-20MU (VQFN). When stock supply for the MCU is no longer an issue, we will be interchangeably using PCB R3.0 and PCB 3.0.1.

All functionalities are the same.

## Documentation Revision

Revision	Changes	Date	Author
1.0	Initial Release	August 9, 2022	R Malinis

### Contact Information:

Sales: [sales@matrixorbital.ca](mailto:sales@matrixorbital.ca)

### Reference Documents/Attachments:

Location: <http://www.matrixorbital.ca/manuals/>

### Approvals:

Development: **Henry Jakl (Design and Development Manager)**

Production: **Yuya Tabata (Production Manager)**
