

December 2021

3M™ Head Protection Product Discontinuation

Dear Valued Customer,

Recently, 3M™ announced the introduction of the SecureFit™ H-Series Hard Hat. In alignment with this new product launch, we are discontinuing our legacy H-Series hard hats that utilize obsoleted suspension systems. The discontinued items are listed at the end of this letter.

To assist you with this phase in/phase out, we have created and attached a crossover matrix. If you would like to discuss any concerns or questions regarding this transition, please contact your local 3M Sales Representative.

Discontinuation Effective: December 15th, 2021
Obsolescence Effective: March 31st, 2021 (as supplies last)

About the replacement product

The new 3M™ SecureFit™ H-Series Hard Hats with Pressure Diffusion Technology are designed to self-adjust to the wearer as the ratchet is tightened. This helps create a personalized fit and reduces the pressure on the forehead up to 30% compared to current 3M H-series hard hat suspensions. The smooth, easy turning ratchet suspension sits low on the head to increase security and reduce pressure, helping to make the SecureFit™ H-Series a comfortable and stable hard hat option.

Both legacy H-Series hard hats and the new SecureFit™ H-Series are tested in accordance with ANSI Z89.1 Safety Compliance Standards.

We thank you for your business and look forward to providing you with our protective eye wear solutions!

Very Respectfully,

Thomas P. Lavalle
