Dear < Customer FSE Last Name>,

Subject: Obsolescence of the Oxygen Sensor

Honeywell Sensing and Internet of Things is announcing a last time buy for the below mentioned oxygen sensor series with no options for replacement parts. Honeywell is willing to facilitate a last time buy from customers to help ease that transition.

< Affected Product Family, Series, Listings>
(Oxymac50, DE800,Elecdit,GMS-10 RVS,GMS10, KGZ12,KGZ50,GMS10-18,MF010 and MF020 Series)

Phase 1: Last Time Buy – Current Pricing: Honeywell will accept orders at the current published price until May 15, 2018.

Phase 2: Last Time Buy – Higher Pricing: From May 16 through July 31, 2018, Honeywell will accept orders at the higher Oxygen Sensor price scheduled to take effect from May 16, 2018 unless otherwise agreed to in writing by Honeywell.

Phase 3: Last Time Buy – Extended Pricing: Orders that come in after July 31, 2018 may not be accepted as Honeywell will begin to decommission equipment. Orders placed after July 31, 2018 will be reviewed on a case-by-case basis and, if accepted, will require the customer to incur a considerably higher price than the May 15, 2018 published price.

Honeywell values its customers and realizes that incorporating the select oxgyen sensors from another manufacturer into their applications may require transition time. We want to work with you to make this a smooth transition to the available solution.

If you have any questions, please contact your Honeywell Sales Consultant, your Sales Representative for Honeywell products, or your Regional Product Manager.

Best regards,

Kenrick Fernandez
