Subject:

Part Number Change for DIN 41612 Style C/2 Straight Receptacle Connectors

Nature of Change: FCI has extended it's popular DIN 41612 Receptacle V1 (Series 8609) range with the development of Style C/2 DIN Straight Receptacle in V1 version. As a part of the rationalization, we propose to standardize Style C/2 Straight Receptacles on the V1 version and would no longer support the present E1 Version. These V1 version connectors conform to all the requirements of DIN 41612 standards and there will be no impact to the fit, function or performance

Implementation Date:

Last Order Date of E1 Version : 15th Feb-2009
Last Order Ship Date of E1 version: 30th Mar-2009
All shipments from April-2009 will be with V1 version

Affected Part Numbers:

See attached list

ACTION REQUIRED

- 1.All future orders for the affected parts should be with the New Part Numbers indicated in the excel file
- 2.Sales team to work on the replacement of the part no's in the customer AVL with the new equivalent part no
- 3.Existing stock of the connectors under the old part no's lying at distributor locations can be supplied to customers
