

## Not Recommended for New Designs: EEE-FKS Series (HF) (Halogen Free, Standard/High Temp. Reflow) and EEE-FKS Series (High Temp. Reflow) Aluminum Electrolytic Capacitors

NRFND.PG25.02.23.2023

02.23.2023

<b>About This Notice:</b>	Aluminum Electrolytic Capacitors Surface Mount Type EEE-FKS Series (HF) (Halogen Free, Standard/High Temp. Reflow) and EEE-FKS Series (High Temp. Reflow) Aluminum Electrolytic Capacitors are not recommended for new designs. We are enhancing our resources into expanding EEE-FN Series with better specifications and line-up (voltage and capacitance) for the following reasons: <ul style="list-style-type: none"> <li>• Low demand for FKS series</li> <li>• EEE-FKS and EEE-FN Series are similar spec</li> </ul>
<b>Features:</b>	<ul style="list-style-type: none"> <li>• Endurance (105°C 2000 h)</li> <li>• Vibration proof product (30G guaranteed)</li> <li>• AEC-Q200 compliant</li> <li>• RoHS compliant</li> </ul>
<b>Effective Date:</b>	Immediately
<b>Affected Parts and/or Replacements:</b>	See attached
<b>Datasheet(s):</b>	See Attached
<b>Notes:</b>
