Supply Chain Raw Material shortage affecting CSA certification on VT Models; 1010, 1210, & 1220

**January 5, 2022, Bulletin #1**

Good News!! The update on the material shortage that directly affected the timely shipment of our variable transformer models 1010, 1210, and 1220 has been completed and approved by CSA.

We have shipped all the part numbers which utilize a suffix “N” for the NON-CSA product, and we are working to ship all back ordered standard CSA approved units by Early March.

We can now accept orders for our standard CSA certified units with delivery in Early March or sooner depending on Supply Chain availability. The interim part numbers with the suffix “N” for the NON-CSA product will ***no longer be used*** as we revert to the Standard Current part number listed below.

CURRENT		Interim		CURRENT		Interim
CSA P/N		NON-CSA P/N		CSA P/N		NON-CSA P/N
1010B		1010B-N		1210B		1210B-N
3PN1010B		3PN1010B-N		3PN1210B		3PN1210B-N
L1010B		L1010B-N		1210B-2		1210B-2-N
1010B-2		1010B-2-N		1210B-3		1210B-3-N
1010B-3		1010B-3-N		1220B		1220B-N
1020B		1020B-N		3PN1220B		3PN1220B-N

Sorry for the inconvenience this may have caused and if you have any questions regarding the shipping production of the 1010, 1210, and 1220 models please do not hesitate to contact Staco at [Orders@stacoenergy.com](mailto:Orders@stacoenergy.com) or me at [heiligenbergp@stacoenergy.com](mailto:heiligenbergp@stacoenergy.com).

Sincerely,

Paul Heiligenberg,

Business Development Manager
