**RE: End of Life Notice for Bridgelux Vero 13 and Vero 18 Zhaga Part Numbers:
Bridgelux Vero Led Arrays**

Ref: BL-EOL-009 09212015

This is an End of Life (EOL) notice for the Bridgelux Vero 13 and Vero 18 Zhaga compatible part numbers. **This is not an EOL notice for the discontinuation of Vero products, just the discontinuation of Vero 13 and Vero 18 Zhaga compatible part numbers.** During the initial phase in of Vero 13 and Vero 18 Zhaga compatible LED arrays, Bridgelux implemented specific part numbers for Zhaga compatible Vero 13 and Vero 18 arrays to facilitate inventory and order management. All standard Vero 13 and Vero 18 LED Array products are now Zhaga compatible, therefore, the specified Vero 13 and Vero 18 Zhaga part numbers will be discontinued to reduce SKU proliferation.

All end of life Vero 13 and Vero 18 Zhaga compatible part numbers can be replaced by standard Vero 13 and Vero 18 part numbers. There is no change to form, fit or function for the replacement LED Arrays. Due to this being an EOL of part numbers and not product, last time buys are not required and product supply will not be interrupted.

End of Life part numbers are listed in Table 1.

End of Life dates as well as replacement part numbers can be found in Table 2.

If you have any questions regarding these product transitions, please contact your Bridgelux Representative.

Regards,

Product Management

Bridgelux - USA

Table 1: End of Life Product List
