CM1426

LCD and Camera EMI Filter Array with ESD Protection

Product Description

The CM1426 is a family of pi-style EMI filter arrays with ESD protection, which integrates four, six and eight filters (C-R-C) in a Chip Scale Package with 0.50 mm pad pitch. The CM1426 has component values of 8.5 pF – 100 Ω – 8.5 pF per channel. The CM1426 has a cut-off frequency of 230 MHz and can be used in applications where the data rates are as high as 92 Mbps. The parts include avalanche-type ESD diodes on every pin that provide a very high level of protection for sensitive electronic components against possible ESD strikes. The ESD protection diodes safely dissipate ESD strikes of ±8 kV, well beyond the maximum requirement of the IEC61000-4-2 international standard. Using the MIL-STD-883 (Method 3015) specification for Human Body Model (HBM) ESD, the pins are protected for contact discharges at greater than ±15 kV.

These devices are particularly well-suited for portable electronics (e.g. wireless handsets, PDAs, notebook computers) because of their small package and easy-to-use pin assignments. In particular, the CM1426 is ideal for EMI filtering and protecting data and control lines for the I/O data ports, LCD display and camera interface in mobile handsets.

The CM1426 incorporates *OptiGuard™* which results in improved reliability at assembly. The CM1426 is available in a space-saving, low-profile Chip Scale Package with RoHS compliant lead-free finishing.

Features

- Four, Six and Eight Channels of EMI Filtering with Integrated ESD Protection
- 0.5 mm Pitch, 10-Bump, 1.96 mm x 1.33 mm Footprint Chip Scale Package (CM1426-04)
- 0.5 mm Pitch, 15-Bump, 2.96 mm x 1.33 mm Footprint Chip Scale Package (CM1426-06)
- 0.5 mm Pitch, 20-Bump, 3.96 mm x 1.33 mm Footprint Chip Scale Package (CM1426-08)
- Pi-Style EMI Filters in a Capacitor-Resistor-Capacitor (C-R-C) Network
- ±8 kV ESD Protection on Each Channel (IEC 61000-4-2 Level 4, Contact Discharge)
- ±15 kV ESD Protection on Each Channel (HBM)
- These Devices are Pb-Free and are RoHS Compliant

Applications

- LCD and Camera Data Lines in Mobile Handsets
- I/O Port Protection for Mobile Handsets, Notebook Computers, PDAs, etc.
- EMI Filtering for Data Ports in Cell Phones, PDAs or Notebook Computers
