Subject:

EOL announcement of Leaded version of Series 8609 (DIN 41612) connectors

Nature of Change:

Market is moving towards increased compliance to RoHS 6 standards. In order to reduce the complexity of managing the inventory and increase efficiency in the plating process, it has been decided to discontinue the leaded version and standardise only on Lead Free version of Series 8609 (DIN 41612) connectors. Customer's may be advised to order equivalent Lead free versions from the part number's as indicated in the attached list

Implementation Date:

We will continue to offer the leaded version till July-08, after this date all supplies of the connectors would be with Lead Free.

Last order date: 30th July-2008

Last order Ship date : 30th Aug-2008

Affected Part Numbers:

See list Attached

Action required:

All customers to be made aware of this change
