Move of Test & Logistics from Nuremberg to Focuz

Dear Customer,

ams AG is pleased to inform you about the upcoming changes on the Dragster products.

ams AG will move the remaining test & logistics activities from the Nuremberg site to subcontractor Focuz Manufacturing in Thailand.

This will involve the following detailed changes:

- ams final products will be shipped directly from Focuz to the customer.
- The outside packing, inside packing and label may change.
- A new tester will be implemented for all Dragsters parts.
- The Dragster RGB test location will be changed to Focuz Manufacturing Thailand.
- The LCC packages and glass lids will be sourced directly by the assembly house but will remain the exact same parts.

Impact on product

No impact on product. No changes in terms of form, fit, function, quality or reliability. As the same BOM parts (from the same vendor) and processes are used, the assembly process does not change.

Impact on delivery schedule

No impact on delivery schedule. The shipments out of Nuremberg will continue until the new supply chain is released.

Impact on packing & shipment

The outside packing, inside packing and label may change. The ship-out location will change from ams Nuremberg to Focuz Manufacturing.

Affected products: Please refer to product list on page 3

Traceability

The ams ERP system assures the traceability by batch ID.

Implementation date and schedule

ams expects to release this change end of June 2019.

Please be advised that unless we receive your written refusal concerning this change notification within 30 days, the change notification shall be deemed accepted.

If you do have further questions, please do not hesitate to contact our customer support team at any time.

Best regards,
