Announcement of production termination concerning FDK Ni-MH battery HR-3U (Typical 2500mAh) model

Thank you for your cooperation and business relationship with FDK.

Due to the decline of the business demand, we have some difficulties to maintain the production of our Ni-MH battery "HR-3U" model under the current price; thus, we have decided to terminate the production of this model on December 31, 2021. If you may need to require an alternative idea to maintain your current business, please consider either "HR-3UWX" or "HR-3UTG" model based upon product requirement of the customer application.

We appreciate your understanding and cooperation. We hope we will be able to continue the good relationship with you through the alternative idea.

1. Current model : "HR-3U(Typical 2500mAh)"

Some of specifications are "Typical 2500mAh", "Minimum 2300mAh" and the dimension is 14.35mm x 50.4mm.

2. Alternative idea : "HR-3UWX" or "HR-3UTG"

HR-3UWX : Some of specifications are "Typical 2500mAh", "Minimum 2400mAh" and the dimension is 14.5mm x 50.4mm.

HR-3UTG : Some of specifications are "Typical 2000mAh", "Minimum 1900mAh" and the dimension is 14.35mm x 50.4mm.

3. Milestone schedules for "HR-3U(Typical 2500mAh)" as the procurement

(1) Last-Time buy PO. (Final date of quantity ordering request) is on September 30, 2021.

(2) End of Production at Takasaki Factory is on December 31, 2021.

(3) Last Shipment from Takasaki Factory is planned on March 31, 2022.

Please contact our sales team if you may have some questions such as the quantity to keep with your business and the consideration replacing to our recommended alternative idea. We are quite welcome to assist you.

Thank you again for your cooperation concerning this matter.
