Description of change:

- On the next slides it is marked with “X” when existing datasheet parameters did not reflect the actual product characteristics. Therefore, adaption of diagrams and parameters were needed.
- New graphs or parameters that have not been shown before are marked with „N“
- As an example the updates in the Datasheet for the TOPLED LA T676 at the end of this document are presented

Correction of datasheets for devices based on classic InGaAlP technology

Objective	Correction of datasheets for devices based on classic InGaAlP technology							
Products affected	Please refer to the attachment 2_cip_OS-IN-2021-016							
Application	TOPLED E1608, TOPLED, Mini TOPLED, Micro SIDELED, Multi TOPLED, PointLED, SIDELED							
Background	<ul style="list-style-type: none"> Layout of all graphs will be updated (e.g. linear scale instead of log. scale) Some existing datasheet parameters do not reflect the actual product characteristics. Therefore, adaption of diagrams and parameters needed. Definition of "Surge Current" will be defined more precise and "Forward current pulsed" will be introduced. If "Surge Current" and "Forward current pulsed" have the same values, "Surge current" will be removed and replaced by "Forward current pulsed" The values for "Temperature Coefficient of Forward Voltage" and "Temperature Coefficient of Dominant Wavelength" will be removed and replaced by graphs for "Forward Voltage" and "Dominant Wavelength" as functions of junction temperature Additional information that are not relevant from technical point of view will be updated (e.g. Text of features on page 1) <p>For more details please refer to the attachment 2_cip_OS-IN-2021-016</p>

Realization

Following graphs will be updated:

- Relative Spectral Emission
- Radiation Characteristics
- Forward Current (as a function of forward voltage)
- Relative Luminous Intensity (as a function of forward current)
- Forward Voltage (as a function of junction temperature)
- Relative Luminous Intensity (as a function of junction temperature)
- Dominant Wavelength (as a function of junction temperature)
- Max. Permissible Forward Current
- Permissible Pulse Handling Capability

For more details please refer to the attachment 2_cip_OS-IN-2021-016

Time Schedule

Updated datasheets will be available on our homepage during the next weeks.

Assessment

No technical change of the products. No change in fit, form, function and reliability.
