

6th March 2023

Ref: Power supplies | SPD and SPDM (Up to 75W) | Phase out

Please be informed that we have started the process to phase out SPD 1-phase and SPDM (up to 75 W) series of power supplies.

Since we still have orders that are yet to be delivered, we will still honor these deliveries, but we will not be accepting new orders for the SPD and SPDM models listed in the Appendix.

For new designs and new orders, we have ample inventory and better price/performance with the SPDE or SPMA series of power supplies. We strongly recommend these series as replacement items for the SPD/SPDM and already discontinued SPM series.

We will be releasing and communicating a full phase out plan within the next 2 months.

Kind regards

Jason Demicoli
Product Line Manager
Switches
