

Product Change Notification

TE Connectivity

Product Change Notification: P-19-017921

PCN Date: 20-SEP-19

TE would like to inform you of the following change(s) to the listed TE Connectivity Product. In case of any further questions about this change(s), please contact your TE Connectivity Sales Engineer. Affected part, drawing and/or specification numbers are listed on the attached sheet(s).

General Product Description:

Low Inductance, High Frequency Chip Inductor - Type 3650 series

Description of Changes

Correction to PCN P-19-017536. The colour dot on the 3650 series which denotes the value of the inductor will be henceforth removed. This will not in any way effect the performance and quality of the product, nor are there any changes to the physical product. The Datasheet will be updated with the new information and issued shortly. Please note: The effectivity date of this PCN are system driven. The changes detailed will be implemented from November 2018, but mixed stocks are unavoidable until existing stock is exhausted.

Other attachments:

[3650 Marking Change](#)

[3650 Marking Change](#)

Reason for Changes:

Customer Request. Customer Request. Following customer discussions it was decided that the fact that the same colour dot can be used to denote several different inductance values was extremely confusing. In the absence of any improved method of identification the inductors will now be supplied unmarked.

Estimated Dates:

Last Order Date (Obsolete Parts Only):	First Date To Ship (Changed Parts Only):
	31-OCT-2019
Last Ship Date (Obsolete Parts Only):	Last Date for Mixed Shipments: (Changed Parts Only):
	29-NOV-2019
