Effective date:

06.09.2022

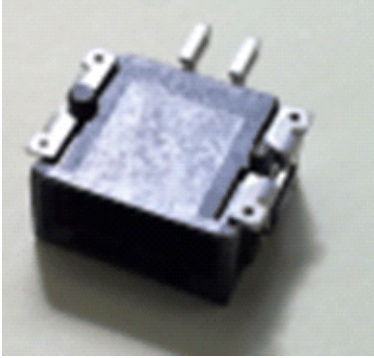

Originator: Thomas Oberschelp/BEE/Technik/EE/de/ERNI , +49 7166 50-

Reason and description of change:

Valued customer,
 one of our molding tools for the MaxiBridge male housings has been modified on the gate side with a 0.1mm recess in order to avoid issues with sprue protrusion.

There are actually existing housings from other molds without gate on the bottom side. These housings were not affected.

This change will be operated without partnumber change, will not affect reliability of product and has no impact on fit or function.

Products Affected / Types

MaxiBridge
