

Electronics Oblique Cutting Nippers

DIN ISO 9654

62
12

- > cutting edges for soft and medium hard wire
- > without bevel; for flush cutting
- > cutting edge hardness (approx. 60 HRC)
- > low-friction double spring for gentle and even opening
- > precision box-joint
- > the polish and a fine film of oil offers effective rust protection – no circuit faults caused by peeling chrome from plated tools
- > ball bearing steel
