OMRON
AUTOMATION & SAFETY

NO:	PC-325	PRODUCT:	CX-One Lite Software on CD
DATE:	April 2016	TYPE:	Discontinuation Notice

Omron CX-ONE Lite Software Will Only be Available on DVD after March 2016

Discontinuation date: March 2016

The CD version of CX-ONE Lite, the programming package for the CP1 series of controllers, will be discontinued in favor of a DVD version. This popular software package on DVD will function identically as the CD version, only the media is changing. To reflect the media change, the part number will change as well.

Affected Parts

Discontinued Product	Recommended Replacement
CXONE-LT01C-V4	CXONE-LT01D-V4
CXONE-LT01C-V4-UP	CXONE-LT01D-V4-UP
CXONE-LT01C-V4-CP	CXONE-LT01D-V4-CP

CX-One Lite programs the CP1 family of controllers and does not have motion control programming or advanced networking.

For the full featured version covering a wide range of Omron controllers, as well as drives, motion, HMI and simulation a full version of CX-One is available as part number CXONE-AL01D-V4

Features
