Notice of polarizer change

To our valued customers,

Thank you for your continued support of Kyocera display products. This notice is to inform you about an upcoming change to the polarizer used in the production of the following products.

1. Target products

1. T-55787GD104J-LW-AHN
2. T-55787GD104J-LW-ALN
3. TCG121WXLRFVNN-AN40
4. TCG062HVLQAVFA-GA20
5. TCG062HVLQAVNN-GN20

2. Background

We received an EOL notification from the current polarizer supplier and will move forward with a replacement.

Kyocera's evaluation confirms the new polarizer shows no changes to the optical characteristics or reliability. Based on this we will proceed with the switch to the new polarizer following the schedule in section 3 below. This will be considered a running change and will not result in a display part number change.

3. Schedule

Current product provided: June 30th, 2023
Expected Transition to New Polarizer: July 1st, 2023
Sample Availability: February 2023

We apologize for inconveniences and appreciate your cooperation.

Kyocera International, Inc - Display Division
