RE: End of Life Notice

Dear Valued Customer and Business Partner,

This letter serves as your formal notification that Anderson Power Products is initiating the End of Life process for parts affecting several of our product families. The affected part numbers are provided in the list accompanying this letter. The objective of providing this notice is to allow for appropriate planning and the opportunity for last time purchases.

Orders placed between the Announcement Date and the Last Order Date are non-cancelable and non-returnable (NCNR). Any orders or inquiries placed now and between Last Order Date, will have a minimum MOQ of 1000 pieces or more.

Table with 2 columns: Milestone, Date. Rows include End of Life Announcement (4/20/2021), Last Order Date (7/20/2021), Last Shipment Date (12/30/2021), and Last Service Date (12/30/2022).

Any special contracts that were in place and active prior to the announcement date will be honored according to the terms of that contract.

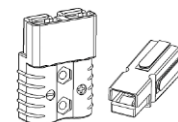

APP will make every effort to review all requests for a last time buy. However, there may be situations where material constraints cause the supply to be exhausted sooner.

A detailed list of all EOL part numbers can be found attached to this letter. If you have any questions or need assistance selecting alternative products, please contact your local Sales or Customer Service Representative at customerservice@andersonpower.com.

Thank you for your continued support and business.
