

# Neodymium shallow pot magnets datasheet

## Countersunk hole

These Neodymium Shallow Pot Magnets feature a countersunk hole to accommodate screw fixings. They are ideal for applications where magnets are used closing mechanisms, where the screw head must be concealed, such as cabinet doors, drawers, gate latches and door holdings.

- Strongest magnetic performance
- Zinc plated body
- With countersunk hole for screw fixings
- Ideal for restricted space closure and fixing applications

### Product Information

| Eclipse Magnetics Product No. | Dia. (mm) | Height (mm) | Hole Size | Screw Head Size | Weight (g) | Pull Force (kg) |
|-------------------------------|-----------|-------------|-----------|-----------------|------------|-----------------|
| E1000/NEO                     | 16        | 4.5         | 3.5       | M3              | 6          | 7.5             |
| E1001/NEO                     | 20        | 6           | 4.5       | M4              | 13         | 10.5            |
| E1002/NEO                     | 25        | 7           | 4.5       | M4              | 24         | 16              |
| E1003/NEO                     | 32        | 7           | 5.5       | M5              | 39         | 31              |
| E1004/NEO                     | 40        | 8           | 5.5       | M5              | 50         | 50              |
