General Product Description:

PN 1969726-1 requires a very tiny tooling pin in the mold to the void core for quality assurance.

Description of Changes

PN 1969726-1 requires a very tiny tooling pin in the mold to the "void core" for quality assurance. This hole location does not affect mechanical strength, mating stubbing, or dielectric spacings. (It's so small, few people will even see it.)

Reason for Changes:

Product Improvement. This is to help mold tooling life and quality consistency from bent cores.
