

Product /Process Change Notification

PCN Number: PCN-ND-2021-XXX

Create Date: 28-May-2021

Issue By PD: Bryan Kuo

1. Description of Change:

- Since dice vender OTC \ TYNTEK adjusted their product portfolio production plan and might limited to support traditional GaP dice which is Wp at typ. 697nm/ Wd at typ. 657nm in near future. Currently, there is no same spec for AllnGaP dice to replace. Therefore, we are forced to limited support display accordingly.
- Considering no same spec for AllnGaP dice to replace, so the similar wavelength will be Wp at typ 650nm/ Wd at typ 639nm as alternative solution dice spec.
- **We plan to EOL following list P/Ns after June. 30th '21.**
Please released last buy order before June 30th '21 for customer demand preparation.
