Effective date:

11.03.2021

Originator: Darius Clement/MK/Vertrieb/EE/de/ERNI , +49 7166 50-369,

Reason and description of change:

Dear Customer,

In the course of product optimization we have changed the plastic material of the connector housing from PA 4T GF 30 to PA 10T GF 30. The MSL (Moisture Sensitivity Level) has changed from MSL 3 to MSL 1. This change affects the packaging as well. The packaging in dry bags can be omitted which has a positive effect on waste prevention and environmental protection.

Parts with PA 4T GF 30 housing material packed in dry bags will be shipped until the existing inventory is exhausted.

This change will be operated without partnumber change and is effective immediately.

This change will not affect reliability of product and has no impact on form, fit or function of these products.

Products Affected / Types

MicroStac
