

Change Notice

B Series

Change to Identification Plate on B Series Locking Lever

Type of Change:

- Engineering Part Number
- Product Appearance

B Series Locking Lever Toggles will have a change to the identification plate that appears on one side of the switch. The modification, on both standard and custom devices, will be an adjustment to the height of the plate. The tables below display the part numbers that are effected by the change, and the difference between the plate before and after the dimension change.

B Series Locking Lever Part Numbers Effected by Change of Identification Plate

B12LP	B13LP	B22LP	B23LP
B12LB	B13LB	B22LB	B23LB
B12LH	B13LH	B22LH	B23LH
B12LV	B13LV	B22LV	B23LV

Identification Plate on B Series Locking Lever

Before Change	After Change

Notes:

There are no changes to the switches' dimensions or specifications. Contact factory if more details are needed.

Effective Date

Change to identification plates for the B Series Locking Lever Switches will be effective February 2015.
