November 29<sup>th</sup>, 2017

Dear Valued Customer,

This letter is to inform you of an upcoming change to the appearance of the ARP alternating relay series of products.

As part of the ongoing rebranding of former SymCom and SSAC products to reflect the Littelfuse branding, the appearance of the ARP series will be changing from the black case to a green enclosure. The specifications and functionality of the products is not changing, but the HP rating is being removed from the regulatory file. Images of the current design and new design are shown below:

Current Design

New Design

This transition to the new Littelfuse branding is anticipated in the next two months.

Please call or email your local Littelfuse SSAC/SymCom representative or technical support at 800.TEC.FUSE or [relays@Littelfuse.com](mailto:relays@Littelfuse.com) if you have any questions or concerns about the transition.

Best regards,
