

PRODUCT CHANGE NOTIFICATION – Laser marking on the CT series

With this notice APEM is informing you that there are modifications to the CT series. We are changing the markings on the body of the part. Previously we used pad printing, the updated part will now have laser marking text. These changes will go into effect **October 2022** on all CT series products.

The reason behind the change is the significant advantages that laser marking provides.

Laser marking benefits:

- Longer lasting text, harder to erase
- Visibility, better contrast of text and body
- Environmental conscious solution compared to ink and solvents

Please see below for the old and new marking on the CT series

Old Ink Printing

New Laser Printing
