HARTING Product Change Notification

PCN

Business Unit: Electronics

PCN/20/015/C+N

Product range: Interface connectors / InduCom

Date: 2020-09-10

Author: Hartmut Klaus

Title: Change of connector in InduCom9 Interface modules - External

Details of Product Changes

1. Concerned part number (see also attachment):

All InduCom9 partnumbers

2. Description of changes / news:

Use of a new connector from a new tooling to secure the availability and to reduce lead time in the production.

3. Impact on product specification:

No impact, the performance level is the same as before, reliability is given as before.

4. Scheduled date of implementation:

Because of a too long leadtime of the former used connectors the new version is already implemented

5. Identification of change:

Only visual difference of the connectors.

6. Data sheet (optional):
