## Product Change Notification

**PCN Publish Date:** December 14, 2011

**PCN #:** PCN121411

**Change Title:** Part number change.

**Products Affected:** See Appendix A

**Description of the Change:**

To provide flexibility for future customer requested finish changes, we are changing the part number to add an "N" in our catalog part numbering system. The "N" for this sequence of parts identifies them as Nickel plated. Concurrently we will be changing our internal number as well to avoid confusion. Our Web Site will be changed to reflect the new part numbers after the first of the year.

**Volume Production:**

Volume production is available now.

New orders should be placed for the "N" suffix. We will advise which one of your open orders (if any) will need to be adjusted. We will provide a list of orders along with this PCN announcement under separate cover if any of your orders need to be changed.

**Customer Impact:**

Please update your internal documentation to reflect the "N" suffix. Please amend all outstanding purchase orders per list provided by us to reflect the new part number.

**Contact Information:**

For questions please contact Aavid Thermalloy Technical Support at [info@aavid.com](mailto:info@aavid.com) or your local sales office.

*Please respond with any issues within 30 days of this notification. Lack of acknowledgment of the change constitutes acceptance of the change.*

## Appendix A

<b>Current Part Number</b>	<b>Internal Oracle Part Number</b>	<b>New Part Number</b>	<b>Internal Oracle New Part Number</b>
MAX01G	406098	MAX01NG	414590
MAX01-HG	406093	MAX01-HNG	414592
