#### Transition Products

Please consult with your Bridgelux Sales Manager to determine your final demand for all BXRA products and help you determine the best replacement Vero & V Series parts for these EOL products. Bridgelux is rolling out its seventh generation of COB products in **June 2016** through Vero and V Series product lines - providing the most comprehensive and competitive COB portfolio in the industry. The new generation of Vero and V Series include additional lumen package and form factor options which most BXRA Series customers and COB applications will appreciate.

Thank you for your continued use of our products. If you have any questions regarding this product transition, please contact your Bridgelux Representative at your earliest convenience.

Sincerely,  
Product Management  
Bridgelux - USA
