

Product Change Notification

TE Connectivity

Product Change Notification: E-14-011878

PCN Date: 30-AUG-14

TE would like to inform you of the following change(s) to the listed TE Connectivity Product. In case of any further questions about this change(s), please contact your TE Connectivity Sales Engineer. Affected part, drawing and/or specification numbers are listed on the attached sheet(s).

General Product Description:
Impact 100 Ohm Orthogonal Headers

Description of Changes
As part of TE's continuous improvement efforts, minor changes have been made to Impact orthogonal header contacts and housings to improve component stability. New revision headers require new application tooling. New tooling will work on old revision headers, but old tooling will not work on new revision headers. TE will replace tools free of charge, as requested.

Reason for Changes:
Product Improvement. Lead-in features were added to housing to improve contact insertion quality. Standoffs were added to housing bottom to improve contact tail stability and housing support on PCB. No changes were made to the mating terminals or mating faces of these connectors and the form, fit and functionality of the parts are not affected.

Estimated Dates:

Last Order Date (Obsolete Parts Only):	First Date To Ship (Changed Parts Only):
	01-NOV-2014
Last Ship Date (Obsolete Parts Only):	Last Date for Mixed Shipments: (Changed Parts Only):
	No Mixed Shipments

Part Number(s) being Modified:

Part Number	Part Discontinued per PCN	Customer Drawing	Alias Part Number(s)	Substitute Part Number	Substitute Alias Part Number(s)	Description Of Difference
