### After Change

To better serve our customers, in July, 2017, Molex will begin shipping a number of Micro Fit parts from the Molex Shanghai facility. Over the course of the following 18 months, Molex is completing additional tooling as well as executing transfers of certain tooling used to produce Micro Fit™. These transfers include finished goods and components being made in multiple locations and some sourcing location changes to leverage our global manufacturing footprint. During this period Micro Fit™ connectors may be shipped to customers from the current Molex manufacturing locations of Lincoln, NE and Nogales, AZ or the new Molex site of Shanghai, China. Molex will manage the transfer schedule appropriately to ensure quality expectations are met while maintaining ongoing deliveries. Expectations are for these transfers to be fully complete by Jan 1, 2019.

The Molex facility in Shanghai is an established ISO/TS 16949 plant and is already the home of many of our FIT's products like Nano Fit™ and Mega Fit™. This project will allow Molex to continue our tradition of excellent quality and improve our overall capacity.

Packaging will clearly denote where finished goods were manufactured. Appropriate samples, FAI's and/or PPAP's will be available upon request.
