

Product End of Life Notification		12/14/2021
Product Line	Digi EX15	

Description of Change	<p>Digi EX15 Cellular Extender End-of-Life Select SKUs</p> <p>Digi is pleased to announce the modernization and streamlining of its Digi EX15 Cellular Extender product line. We are phasing out Digi EX15 models with older cellular technology and offering replacement models with latest cellular technology, global LTE band coverage, and cellular speed increases.</p> <p>The major benefits of these changes are a technology upgrade, a reduced number of SKUs that partners need to carry, and the ability to use a single SKU for global deployment.</p> <p>The suite of upgradeable Digi CORE® LTE plug-in modems lets users select the cellular speeds and features that best fit their business requirements. This PCN covers the End-of-Life status for Plug-In modems and offers suitable replacements to maintain the performance and price structure as expected by Digi partners and customers.</p> <p>See your Digi Sales representative for questions concerning affected products. A table with suggested replacement SKUs is provided below.</p>
