General Product Description:
Connector inserts color change

Description of Changes
Dear valued customer, based on supply chain constraints we need to use the same resin in a different color for some of our connector inserts. Instead of the commonly used brick red color, black resin needs to be used in order to continue the production. The color is the only difference, all electrical and mechanical characteristics remain unchanged, the same applies to the existing UL approval. Not using this resin would lead to an interruption of supply to an undetermined date in the future. Please find affected PN's below
